Subject: follow-up

This is to follow-up on a voice message I left on your phone on Monday, January 13, 2003. I haven't seen anything so I thought I would send an email with the message.

With regards to extending the time to submit the information for the Peoa mine, We need to have a written request (or email) giving the reasons for the needed extension, and an approximate date as to when you think you can get the information to us.
